

**Amendments to the Specification:**

Please replace the paragraph beginning on page 2, line 22, with the following rewritten paragraph:

This invention includes a following modification.

(a) A membership registration is a registration that is performed separately from a customer registration in order for a registered customer to receive a web service.

(b) Customer information includes information about whether a customer is a corporate (also means corporation) or an individual and only when the customer is an individual, information advising the membership registration may be configured to transmit.

(c) Of the registered customers, information advising the membership registration may be configured to transmit to a customer that has not performed the membership registration yet.
